What Our
Customers Say

The Journey That Built Us

With over 35 years of excellence, APL Apollo has emerged as one of India's most trusted names in piping, uPVC doors and windows, and water solutions. Built on a foundation of innovation, quality, and affordability, the brand delivers a wide portfolio—from pipes and fittings to bathroom, water storage solutions, and premium uPVC doors and windows—designed to meet the evolving needs of Indian consumers.

Operating across key sectors like plumbing, sanitation, infrastructure, agriculture, construction, and oil & gas, APL Apollo manufactures products that blend durability with modern aesthetics.

Backed by 9 state-of-the-art manufacturing plants across India with a production capacity of 2,16,000 MTPA, the company ensures a robust pan-India presence through 1,000+ channel partners and 40,000+ customer touchpoints.

With over 2,600 SKUs including CPVC, uPVC, Agri, SWR, PPR-C, HDPE, Column, Casing, UDG, PVC-O, Gas Pipes, Duct Pipes, Solvent Cement, Bath Fittings, uPVC doors and windows, and more, APL Apollo offers the widest range of plumbing and building solutions in the country. All products are designed for Indian conditions, yet meet international quality standards.

Our Mission

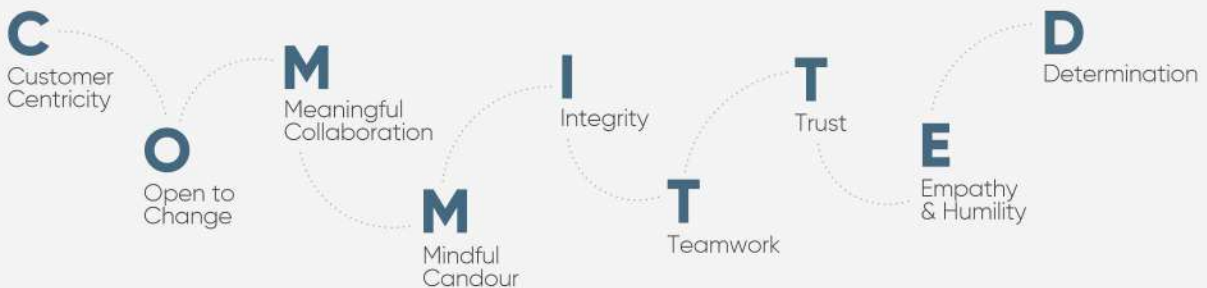

Our mission is to redefine modern fenestration in India by delivering energy-efficient, weatherproof, and maintenance-free doors and windows – engineered for every climate, designed for every customer, and manufactured with precision through automated, scalable production lines.

Our Vision

To become India's most admired fenestration brand – transforming spaces with elegant, energy-efficient solutions that blend performance, aesthetics, and the enduring trust of Apollo.

Our Values

why APL Apollo?

BECAUSE YOUR SPACES DESERVE CARE, NOT JUST CONSTRUCTION

APL Apollo creates doors and windows that go beyond function. Each piece is crafted to offer protection, peace, and a sense of belonging to your space. Whether it's rain, extreme winds, sandstorms or summer heat, our systems stand resilient, keeping you safe, comfortable, and confident every day.

We believe quality lives in the details. That's why every product is tested to perform across seasons and designed to blend seamlessly into your lifestyle.

Our focus also includes the world around us. The solutions we offer contribute to energy efficiency and a lower environmental footprint, making your home feel better while supporting the planet.

When you choose APL Apollo, you welcome durability, design, and a partner that respects your vision.

END-TO-END SOLUTIONS

Designed around you

Site Consultation

A detailed assessment of your space, style, and objectives ensures the right solution for every project.

Precision Survey & Measurement

Exact on-site measurements secure a flawless fit and seamless integration.

Customised Designs

Your vision is paired with our expertise to create designs that fulfill your aesthetic and functional needs.

Advanced Manufacturing

Systems are produced in state-of-the-art facilities for superior strength, accuracy, and finish.

Delivery & Installation

Products arrive on schedule and are installed by trained professionals who respect your time and space.

Lifetime After-Sales Support*

Dedicated assistance remains available throughout the product's lifespan, safeguarding enduring performance.

SOLUTIONS FOR EVERY SETTING

Villas and Bungalows

Designed to add elegance, efficiency, and comfort to spacious homes built for living well.

Apartments

Secure and refined systems, ideal for city residences across high-rise and low-rise settings.

Renovation Projects

Reliable upgrades that improve insulation, appearance, and energy use while respecting existing structures.

Hotels, Hospitals, and Schools

Built with a focus on calm, safety, and temperature control for guests, staff, and patients alike.

Offices and Industrial Spaces

Engineered to perform under pressure. Our systems offer strength, insulation, and durability across work environments and large properties.

Sudesh Group

35 Years of excellence

living *starts*

with the Right Windows & Doors

Doors and windows define the soul of a space. They bring in light, invite fresh air, and offer a quiet sense of safety. They set the mood, frame the views, and make every corner feel like home.

They influence how a home looks and how it lives. Natural light, better ventilation, energy savings, and noise insulation—comfort in the details.

At APL Apollo, we craft windows and doors that do more than function—they uplift. They add character, improve everyday comfort, and stand the test of time. Because when your space feels better, so do you.

The Strength Behind Every Frame: Why uPVC?

UPVC (unplasticised polyvinyl chloride) is a material trusted across the world for its durability, performance, and low maintenance. At APL Apollo, we use premium-grade uPVC to ensure every window and door is built to last, without compromising on aesthetics or sustainability.

Weather Resistant

Performs reliably across climates. No swelling, warping, or fading.

Excellent Insulation

Reduces outside noise and enhances thermal efficiency, keeping interiors quieter and more comfortable.

Low Maintenance

No need for regular painting or polishing. A simple wipe keeps it looking new.

Fire Retardant

Does not support combustion. Provides added safety in residential and commercial spaces.

Termite & Corrosion Proof

Unlike wood or metal, uPVC resists common damage without added treatments.

Eco-Conscious

Fully recyclable and energy-efficient—built to support a more responsible lifestyle.

Strong & Secure

Multi-chambered profiles with steel reinforcements offer structural integrity and enhanced security.

Our expertise

At APL Apollo, expertise is built into every stage of the process—from innovation and production to installation and support.

Innovative In-House Research & Development

Our R&D teams pioneer advanced solutions that continuously raise the bar in durability, design and sustainability.

Cutting-Edge Manufacturing Facilities

Leveraging world-class technology, our manufacturing units deliver precision-engineered products with uncompromising quality.

Experienced and Dedicated Technicians

From production to installation, our skilled professionals ensure every detail is executed with accuracy and care.

International Certifications & Standards

Our products proudly hold European certifications and comply with global benchmarks, underscoring our promise of safety, reliability, and excellence.

Your Complete Journey with APL Apollo

Every step of your journey with APL Apollo is crafted for ease, quality, and lasting satisfaction.

Consultation

We begin by understanding your unique needs, space, and style to provide expert guidance.

Design

Our team transforms your vision into detailed, customised solutions that blend aesthetics with functionality.

Installation

Skilled professionals handle the setup with care and accuracy, ensuring seamless integration in your space.

After-Sales Support

Our commitment continues well beyond installation, offering ongoing assistance to keep your doors and windows performing flawlessly.

Manufacturing

Using advanced technology and stringent quality checks, we produce durable, precision-engineered products.

Our Product Range

APL Apollo offers a versatile portfolio of uPVC systems designed to suit every space—whether it’s a private residence, a bustling office, or a hospitality landmark. Each product line blends refined aesthetics with dependable performance, giving you the freedom to choose what works best for your project.

WINDOWS	SIGNATURE ADVANTAGES	IDEAL SETTINGS
Villa Windows	Twin-sash frame with integrated grill and bug mesh; generous ventilation plus added security	Luxury residences, tropical climates
Tilt-and-Turn Windows	Dual-action sash tilts for micro-ventilation or swings inward for full access; sleek European styling with multi-point locking ensures a tight, weather-sealed closure.	High-rise apartments, modern homes
Casement Windows & Doors	Hinged panels open wide for maximum airflow; multi-point locking ensures a tight, weather-sealed closure	Living rooms, bedrooms, and main entrances
Sliding Windows	Steel-reinforced profiles and precision rollers create wide glass expanses without encroaching on interior space.	Balconies, high-rise buildings, and compact areas needing ample daylight.

DOORS	SIGNATURE ADVANTAGES	IDEAL SETTINGS
Sliding Doors	Smooth-glide panels on dust-free tracks; excellent energy efficiency and secure sealing	Perfect for patios, offices, apartment balconies, and high-rise applications.
Bi-Fold Doors	Multiple panels fold and stack neatly to one side, opening entire walls for seamless indoor-outdoor living	Cafés, entertainment zones, open-plan homes, balconies, and villas.
Lift-and-Slide Doors	Lift mechanism raises heavy sashes for effortless movement; lowered position locks tight for superior insulation	Large villas, high-rise settings, panoramic openings, and premium façades.

excellence

CASEMENT DOORS & WINDOWS

Classic appeal, wide-open vistas,
airtight comfort.

Key Features

-  90° inward or outward opening sash
-  Multi-point locking and hidden hinges
-  Multi-seal system for superior air and water tightness
-  Steel-reinforced uPVC profiles for long term strength & stability
-  High acoustic and thermal insulation values

Application Ideas

Living rooms
that crave full
ventilation

Heritage façades
seeking contemporary
performance

Spaces that demand
superior insulation
from noise and dust

Sudeh Group

35 Years of
excellence

SLIDING DOORS & WINDOWS

Space-saving panels that glide as if on air.

Key Features

-  Stainless-steel rollers on dust-free tracks
-  Anti-lift center seal for high sealings
-  Reinforced profiles as per structural requirement.
-  Optional integrated fly-screen track

Application Ideas

Compact balconies where swing clearance is limited

Contemporary offices needing uninterrupted sightlines

Patio transitions blending indoor comfort with outdoor living

Sudesh Group

35 Years of excellence

VILLA WINDOWS

Tropical practicality meets elegant proportion.

Key Features

-  Twin-sash system with built-in bug mesh and grill
-  Wide ventilation without compromising security
-  Suitable for large apertures
-  Low-maintenance uPVC profiles with UV-stable finish

Application Ideas

Premium homes in warm, humid climates

Coastal villas requiring insect defence and airflow

TILT-AND-TURN WINDOWS

European dual-action versatility in one sash.

Key Features

-  Tilt mode for safe, continuous ventilation
-  Turn mode for full cleaning access and egress
-  Concealed multi-point locking around the perimeter

Application Ideas

High-rise apartments demanding secure airflow

Kitchens and study areas needing easy cleaning access

Sudesh Group

35 Years of excellence

BI-FOLD DOORS

Walls that disappear, spaces that connect.

Key Features

Multiple panels fold and stack to a single side

Heavy-duty bottom-running hinges and rollers

Continuous bottom seal for weather protection

Application Ideas

Cafés opening to street seating

Home entertainment zones merging with the garden

LIFT-AND-SLIDE DOORS

Panoramic glazing, fingertip ease.

Key Features

-  Lift the sash to disengage gasket with effortless handle movement to provide smooth sliding.
-  Sashes up to 400 kg handled by precision carriages
-  Drop-seal locking yields top-tier air- and water-tightness

Application Ideas

Luxury villas with infinity-pool views

Boardrooms requiring wide, unobstructed glass walls

Sudesh Group

35 Years of excellence

Your Palette of Possibilities

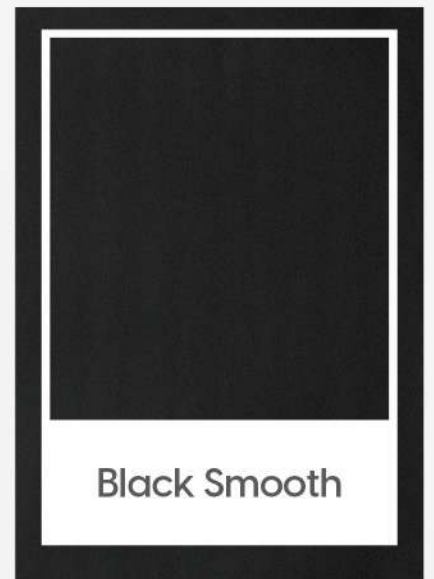

Choose from a range of premium frame colours and finishes to perfectly match your style and space. Our durable laminations ensure lasting beauty without fading or peeling.

Advanced Solutions for
modern
living

Designed to meet today's
evolving lifestyle needs, our
specialised systems enhance
comfort, security, and
privacy.

Anti-Pollution

Precision-engineered sealing and multi-chamber profiles significantly reduce dust, smog, and allergen entry, promoting cleaner indoor air.

Acoustic Performance

Robust frame construction combined with superior sealing minimizes external noise, creating quieter, more peaceful interiors.

Safety & Security

Reinforced profiles and multi-point locking systems deliver enhanced protection against forced entry and ensure lasting durability.

Privacy Ready Frames

Designed to seamlessly accommodate privacy glass technologies such as PDLC, offering you flexible control over transparency and discretion.

What Our Customers Say

Real stories from people who've trusted **APL Apollo**.

"APL Apollo gave our home a sense of strength and calm. The quality stands out, and it feels good knowing we've chosen something dependable."

– *Ritu Sharma, Homeowner*

"In a business where timelines matter, APL Apollo has never let us down. They're always ready, always responsive. That builds trust – project after project."

– *Pooja Nair, Project Manager*

As an architect, I value precision and dependability. APL Apollo delivers both. Their team is attentive, and their products never disappoint."

– *Kanishk, Architect*

"We've worked with many brands over the years, but APL Apollo brings something rare – consistency. Their team listens, responds, and delivers without fuss."

– *Neha Arora, Interior Designer*

"APL Apollo makes building simpler. Their products are strong, efficient, and always ready for the demands of large projects. It's a name we count on."

– *Sonal Gupta, Facility Manager*

"What I appreciate most is how approachable they are. You're not chasing updates – they stay connected every step of the way. It feels like a true partnership."

– *Zaid Ahmed, Fabricator*
